

Introduction to Applied Behavior Analysis (ABA)

A Free Workshop by Autism Learning Partners in Collaboration with Easter Seals of Central Texas

Introduction to Applied Behavior Analysis

(ABA): This workshop is designed for families who would like to learn more about Applied Behavior Analysis (ABA), and how it can benefit those with autism, as well as a variety of learners.

The presentation will aim to support families in better understanding ABA, autism, how behavioral strategies are used to improve behavior, teach communication, social, play, and self-care skills, and how to navigate behavioral services.

Childcare is provided for this event. Please RSVP for childcare, as space is limited!

Saturday, September 21st
10:30 AM – 12:00 PM

Easter Seals of Central Texas
8505 Cross Park Dr., Ste. 120
Austin, TX 78754

Join Associate Clinical Director,
